Sleep Complex tablet

Food supplement

Melatonin helps reduce the time necessary for falling asleep. L-Tryptophan is an essential amino acid that is necessary for making proteins involved in the synthesis of melatonin and serotonin. Vitamin B6 contributes to normal energy-yielding metabolism, normal functioning of the nervous system, normal homocysteine metabolism, normal protein and glycogen metabolism.

1000 tablets

Net weight: 270 g

Ingredients: bulking agents: microcrystalline cellulose, dicalcium phosphate; L-tryptophan, anti-caking agents: magnesium stearate, silicon dioxide; pyridoxine hydrochloride, melatonin.

Ingredients	1 tablet (%NRV*)
Vitamin B6	6mg (428%)
L-Tryptophan	40mg
Melatonin	1mg

Use: for adults 1 tablet per day per day before bedtime.

Not recommended during pregnancy, for breastfeeding mothers, for people with autoimmune diseases, as well as for children. Drivers should use it with caution, as the tablets may cause drowsiness and slow down the reaction speed.

Store in a place inaccessible to children! Do not exceed the recommended daily dose!
Store in original package, in a dry place, at room temperature! Do not use the food supplement as a replacement for a healthy and balanced diet!!!

Manufactured: In European Union
